Home Energy Bill Assistance Program, San Diego Office

HEAP assists clients who need help in paying their electric or gas bills. Clients provide information that will be used to determine an established benefit amount that will appear as a credit on the clients' bills. The Home Energy Assistance Program may pay for a portion of the energy bill in the form of a dual or single party warrant or a direct payment to a utility company. The amount of assistance ranges from \$217 to \$361, and the average waiting period for a check is 10 to 12 weeks. The client must continue to pay their energy bills since HEAP only covers current energy bills—assistance with propane bills when funds are available on a limited basis.
